EXPERIENCE

Senior Member Of Technical Staff

Oracle India Pvt. Ltd   📅 06/2014 - Ongoing   📍 Bangalore

Oracle Identity Cloud Service (IDCS)

Oracle Identity Cloud Service Management provides an innovative, fully integrated service that delivers all the core identity and access management capabilities through a multi-tenant Cloud platform. The design of the next generation Identity cloud Service (IDCS) is based on the Microservice architecture, which is naturally aligned with Cloud principles of Scalability, Elasticity, Resilience, Ease of Deployment, Functional Agility, Technical Adoption and Organisation Alignment.

- I own Password Management and Account Recovery modules in IDCS.
- Implemented Account Recovery module from scratch.
- Developed UI for Account Recovery using OJET, which is based on KnockoutJS, RequireJs, jQuery and other open source JavaScript libraries.
- Fixing defects, performance fixes, implementing ER's in Password Management and Account Recovery modules.
- Implementing POC's for new features in the product.
- Doing peer code review.
